Aude Sportisse

Third year PhD student

16 rue Léon Bourgeois
91120 Palaiseau
06 75 70 55 84
aude.sportisse@upmc.fr
homepage: https://audesportisse.github.io
Birth Date: 30 December 1995

Work experience

2018- **PhD thesis, at LPSM (Sorbonne Université)**, supervised by Dr. Claire Boyer and Dr. Julie Josse, Handling missing data with different missing mechanisms.

2018- **Member of the Machine Learning Journal Club (Ecole Polytechnique)**.

2018 **Research Internship at CMAP, Ecole Polytechnique**, *5 months*, Low-rank matrices with MNAR data, supervised by Dr. Julie Josse and Dr. Claire Boyer.

2017 **Research Internship at Bioserenity, start-up of the Brain and Spine Institute (From my own initiative)**, *3 months*, Statistical testing/ Machine Learning.

2017 **Research work, in collaboration with EDF**, *1 semester*, Statistical methods for performance forecast of photovoltaic power stations, supervised by Dr. Etienne Roquain.

2015 **Research Internship at Laboratory of Dynamical Meteorology (UPMC/CNRS/X/ENS)**, Optimization of the energy mix in Guadeloupe (modelling and simulation with Python), supervised by Dr. Olivier Boucher.

Education

2016-2018 **Master degree, Mathematics and applications, Statistics**, *University Pierre and Marie Curie/Sorbonne University*, with high honors (average mark: 17.50/20).
Main courses: Statistical Learning, Compressed Sensing, Data Science, Monte Carlo Methods, Statistics in High Dimension, Empirical Processes, Bayesian statistics.

2013-2016 **Double-bachelor's degree, Mathematics and Physics**, *University Pierre and Marie Curie*.

2013 **French and German Highschool Diplomas**, *Lycée Richelieu*, Rueil.

Talks

Oct. 2020 **MIA Seminar**, *AgroParisTech*, *Debiasing SGD to handle missing values*.

Jul. 2020 **One World : statistical learning seminars**, *Robust Lasso-Zero for sparse corruption and model selection with missing covariates*.

Jun. 2020 **Simpas Group Meeting**, *Ecole Polytechnique*, *Estimation and imputation in PPCA models with MNAR data*.

Jun. 2019 **JdS**, *Nancy*, *Estimation with informative missing data in the low-rank case*.

Mar. 2019 **DAGStat Conference**, *Munich*, *Imputation and low-rank estimation with MNAR data*.

Posters

Dec. 2020 **NeurIPS 2020**, *Debiasing SGD to handle missing values*.

Dec. 2020 **NeurIPS 2020**, *Estimation and imputation in PPCA models with MNAR data*.

Jun. 2019 **Data science summer school**, *Ecole Polytechnique*, *Estimation and imputation in PPCA models with MNAR data*.

Jun. 2018 **Data science summer school**, *Ecole Polytechnique*, *Low rank estimation with MNAR data*.

Teaching and Mentorship

2019- **University Pierre and Marie Curie**, *Inferential statistics*, Third year of Bachelor's Degree.

2018- **University Pierre and Marie Curie**, *Statistics with R*, First and second year of Master's Degree.

2018- **Ecole Polytechnique**, *Mentorship of students in an executive degree in Machine Learning*.

Skills

Programming R, Python

Languages French (natal), German, English
